The Cathedral of Saints Peter and Paul celebrates over 145 years of fellowship and service to the Roman Catholic communities of Rhode Island and beyond.

Over 145 Years of Service and Celebration

The Cathedral of Saints Peter and Paul in Narragansett Bay, Rhode Island, was erected in 1871. The first cornerstone was laid on April 30, 1871, by Bishop Matthewقلق. The cathedral was dedicated on November 21, 1871, by Bishop John Keough of Boston.

The cathedral was designed by the architect H.H. Richardson, who was a disciple of Louis Sullivan. The cathedral is a fine example of Richardsonian Romanesque architecture.

The cathedral was built with materials from local quarries and is noted for its stained glass windows, which were designed by the artist Augustus Saint-Gaudens.

The cathedral is a popular tourist attraction and is a important landmark in the history of Rhode Island.
